

**Wednesday, April 29, 2026 from 17:30 to 18:30**

General description, scope and objectives of this webinar

The programme of this webinar will cover the optimal imaging approach to acute abdominal pain, focusing on emergency scenarios. It is aimed at radiologists and radiology residents who want to improve their skills in:

- ▶ Choosing the most appropriate imaging modality for acute presentations
- ▶ Identifying life-threatening abdominal emergencies

After watching the webinar, participants will be able to:

- ▶ Interpret CT and ultrasound findings in acute GI pathology
- ▶ Provide timely, actionable imaging reports in emergency settings

The webinar includes case-based presentations and live discussion.

Duration 60 minutes

Speaker: Dr. Marta Duczkowska

Moderator: Dr. Francesca Castagnoli

**Detailed programme**

- Introduction by Dr. Castagnoli Francesca (5 min)
- Presentation on “**Acute abdominal pain: Imaging in gastrointestinal emergencies**” including MCQs, by Dr. Duczkowska Marta (40 min)
- Live Q&A from the audience, moderated by Dr. Castagnoli Francesca (10 min)
- Conclusion and key messages by Dr. Castagnoli Francesca (5 min)
