

Wednesday, June 24, 2026 from 17:30 to 18:30

General description, scope and objectives of this webinar

The programme of this webinar will cover imaging patterns and quantification methods for chronic liver disease and fibrosis. It is aimed at radiologists and radiology residents who want to improve their skills in:

- ▶ Interpreting imaging features of diffuse parenchymal liver diseases
- ▶ Using elastography and quantitative MRI techniques

After watching the webinar, participants will be able to:

- ▶ Recognise staging features of liver fibrosis and steatosis
- ▶ Integrate imaging findings into patient management decisions

The webinar includes case-based presentations and live discussion.

Duration 60 minutes

Speaker: Dr. Edmund Godfrey

Moderator: Dr. Sarah Pötter Lang

Detailed programme

- Introduction by Dr. Pötter Lang Sarah (5 min)
- Presentation on “**Diffuse liver disease**” including MCQs, by Dr. Godfrey Edmund (40 min)
- Live Q&A from the audience, moderated by Dr. Pötter Lang Sarah (10 min)
- Conclusion and key messages by Dr. Pötter Lang Sarah (5 min)
