

Wednesday, May 20, 2026 from 17:30 to 18:30

General description, scope and objectives of this webinar

The programme of this webinar will cover pre- and postoperative imaging in bariatric surgery patients. It is aimed at radiologists and radiology residents who want to improve their skills in:

- ▶ Assessing surgical anatomy and complications using CT and fluoroscopy
- ▶ Recognising expected postoperative imaging appearances

After watching the webinar, participants will be able to:

- ▶ Identify and report common surgical complications
- ▶ Support multidisciplinary bariatric care through imaging

The webinar includes case-based presentations and live discussion.

Duration 60 minutes

Speaker: Dr. Hannah Lambie

Moderator: Dr. Damian Tolan

Detailed programme

- Introduction by Dr. Tolan Damian (5 min)
- Presentation on “**Radiology for bariatric surgery**” including MCQs, by Dr. Lambie Hannah (40 min)
- Live Q&A from the audience, moderated by Dr. Tolan Damian (10 min)
- Conclusion and key messages by Dr. Tolan Damian (5 min)
