

Wednesday, September 30, 2026 from 17:30 to 18:30

General description, scope and objectives of this webinar

The programme of this webinar will cover the systemic abdominal manifestations of IgG4-related disease across multiple organs. It is aimed at radiologists and radiology residents who want to improve their skills in:

- ▶ Recognising multi-organ imaging patterns of IgG4-RD
- ▶ Differentiating IgG4-RD from malignancy and infection

After watching the webinar, participants will be able to:

- ▶ Identify hallmark imaging clues across abdominal organs
- ▶ Contribute to early, accurate multidisciplinary diagnosis

The webinar includes case-based presentations and live discussion.

Duration 60 minutes

Speaker: Dr. Evangelos Chartampilas

Moderator: Prof.Dr. İlkay İdilman

Detailed programme

- Introduction by Prof.Dr. İdilman İlkay (5 min)
- Presentation on “**IgG4-related disease in the abdomen: Imaging features and diagnostic clues**” including MCQs, by Dr. Chartampilas Evangelos (40 min)
- Live Q&A from the audience, moderated by Prof.Dr. İdilman İlkay (10 min)
- Conclusion and key messages by Prof.Dr. İdilman İlkay (5 min)
